

DATA SHEET

SMOKELESS AUTOMATIC GRIDDLE AGSH

Machine designed for grilling meats, fish, or vegetables without smoke or odors, with high efficiency, and without the need for a traditional smoke extraction kitchen or installations. It passes the smoke-laden air through a cooling and filtration system with accelerated speed for effective filtering, removing water vapor, grease, odors, and smoke.

AGSH

TECHNICAL SPECIFICATIONS:

- Manufactured in satin-finished AISI304 stainless steel.
- Cyclonic® system.
- Removable tilting basket.
- Removable activated carbon filter to be replaced annually or every 1000 cycles.
- Removable interior oil filter, and all parts are detachable for easy cleaning, even dishwasher-safe.
- Grease container with drain tap for emptying and draining filtered grease and residues.
- Built according to CE regulations. Air recirculation certificate without grease or smoke.
- Temperature thermostat with adjustable rollers from 0°C to 300°C.
- Water resistance rating IP6.
- 5 customizable programs for time and temperature.
- Removable 8-liter oil tank.
- Cleaning and filter/oil change indicators on the digital display.
- Cooling system with CFC-free Gas 134a for vapor elimination and liquefaction.
- Motorized tilting of the tank through the main control panel.
- Fire suppression system [optional].
- Maximum product thickness for grilling: slices up to 9mm thick, up to 13mm.
- Grilling time ranges from 1 to 5 minutes, depending on the product.

MODEL: AGSH

DIMENSIONS: LENGT 856mm. / WIDTH 527 mm. / HEIGHT 728 mm.

POWER: 4500 W.

CONSUMPTION: 6200W.

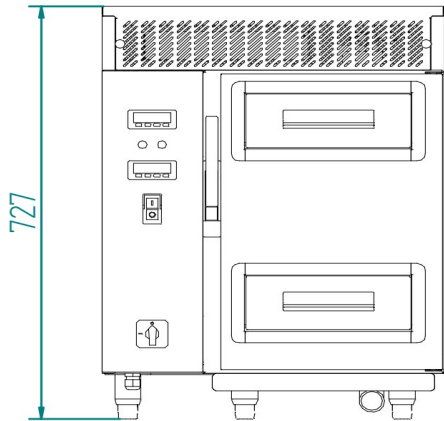

USERFULL WIDTH GRILL: 255mm

PRODUCTION Kg/H :8

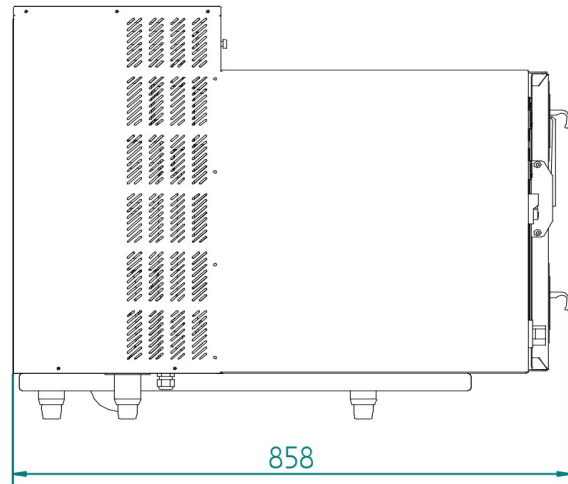

HOURS PORTIONS: 60

VOLTAJE: 230 Ó 380V.
