

DATA SHEET

AUTOMATIC CROQUETTE FORMING MACHINE

FORMACRO400

Automatic Croquette Dosifier or Forming Machine designed for the automatic dispensing of this type of food, such as meatballs and croquettes. It is a highly useful machine for meat processors, catering services, and restaurants. The dosifier operates pneumatically and electrically, requiring a micro-pneumatic compressor for its operation (optional). Additionally, it can be connected to an automatic stuffer with a 30 mm outlet (optional). Our croquette forming machine comes with a built-in nozzle of a standard dimension of 25 mm. It also allows the possibility of obtaining interchangeable nozzles of 22 mm, 28 mm, and more.

FORMACRO400

TECHNICAL SPECIFICATIONS:

- Built entirely in AISI 304 18/10 stainless steel.
- Completely detachable for easy cleaning.
- Equipped with sanitary acrylic protectors.
- Allows for the adjustment of croquette length, resulting in sizes ranging from 20 grams to 60 grams per croquette.
- Production capacity of up to 3600 croquettes per hour.
- Built according to CE regulations.

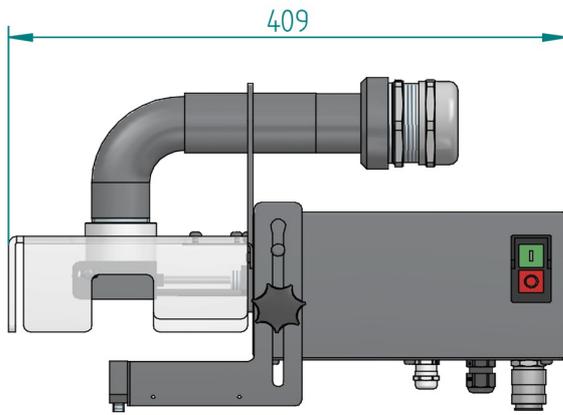

MODEL: FORMACRO400

DIMENSIONS: LENGT 400mm. / WIDTH 120 mm. / HIGH 200 mm.

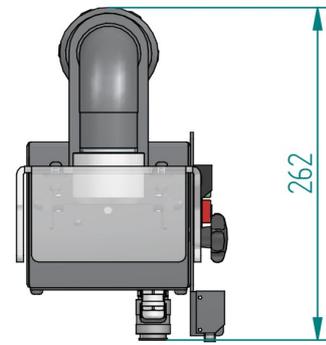

POWER: Current [amperage] 0.55A

VOLTAGE: 230V III.
